### Program Offerings<sup>2</sup>

The Monroe School is a private day school committed to fostering academic excellence in students challenged by learning difficulties. The school's program is designed to assist junior and senior high school students with mild to moderate learning needs who are experiencing inconsistencies between their academic achievement and intellectual abilities in one or more academic areas, such as reading, writing, oral expression, math. The Monroe School also serves students with attention-deficit hyperactivity disorder (inattentive type), other health impairment, multiple disabilities, or students just in need of a small milieu. The Monroe School offers students a diploma-based, college-preparatory program with courses, activities, and technical skills that will prepare them for transition to college or the work world. The school promotes an alliance among students, parents, faculty, and community organizations to produce self-sufficient, lifelong learners. Academic support also includes vocational coursework and training and reading and math resource. Students receive the following related and clinical services: clinical counseling, independent evaluations, speech-language therapy and evaluation, occupational and physical therapy and crisis management. Monroe School's transitional services provide students with community-based internships and jobs, post-secondary resources/support, career and college preparation and transition training.

## NONPUBLIC SCHOOL PROFILES 2014: FAQs AND DEFINITIONS

### What's included in the Program Information section?

*I don't see the school name or address of the nonpublic school my child attends. Why not?*

There are two possible answers to this question:

59. The nonpublic school your child attends may not be on our Certificate of Approval (COA) list, meaning the school has not gone through the COA application process to be certified by OSSE. Schools on OSSE's approved COA list are eligible to receive educationally placed students through the IEP process. If your child's school is not listed here, then more than likely your child was placed through a different District agency or through a Hearing Officer Determination.
  
60. The OSSE Nonpublic School Profiles are aggregates for the schools as a whole. Many of the nonpublic schools have multiple locations (sometimes referred to as campuses) with varying programs. We have only included the main address in the OSSE Nonpublic School Profiles. The reason for this is that when OSSE collected student data from each of the COA-approved nonpublic schools, we asked for aggregate data for all of their locations/campuses. However, if you would like to see a list of the schools and campuses currently approved by OSSE with addresses, disabilities and grades served, please refer to OSSE's approved nonpublic school list found [here](#) on our website. You can also visit the website for the nonpublic school for more extensive information.

### *The capacity of the nonpublic school seems higher than what I have seen at the school. Why is that?*

The capacity number included in the OSSE Nonpublic School Profile reflects the school's reported maximum capacity. At any given time the census at the school may be lower than their maximum capacity.

### What's included in the Program Offerings section?

Nonpublic schools were provided the opportunity to provide a brief narrative description on their program offerings. For more extensive information on nonpublic schools' program offerings please visit their respective websites. *Please note that OSSE included program descriptions to provide parents and IEP teams with information to aid in planning for students' educational program. OSSE does not endorse the specific claims made by nonpublic school programs in their program descriptions.*

### What's included in the Reported Incidents section?

This is a self-reported section of the Nonpublic Profile. The Nonpublic schools submitted information to OSSE on student aggregate data regarding behavior incidents.

#### Suspensions:

Schools reported the number of instances that students were suspended either in or outside the school setting.

#### Physical Restraints:

The use of physical restraints is prohibited in all nonpublic special education schools and programs except in emergency circumstances, which are defined as circumstances that meet the following criteria:

- (a) The use of the restraint is included in the student's IEP to address specific behaviors under defined circumstances, and the use by appropriate staff is therefore consistent with the student's IEP; or
- (b) The intervention is necessary to protect the student or other person from imminent, serious physical harm; and other less intrusive, nonphysical interventions have failed or been determined inappropriate.(DCMR §A-2816.1)

#### Seclusion:

A nonpublic special education school or program shall not use any form of seclusion on a District of Columbia student unless it is an emergency, as defined in section DCMR §A-2816.1. Use of seclusion as a policy or practice shall be grounds for denying or revoking a certificate of approval. (DCMR §A-2819.1)

## **Ambulance Escorts:**

Schools reported the number of instances that students were escorted from school via ambulance to a hospital. OSSE currently does not have the data as to the reasons students were escorted by ambulance.

## **Police Escorts:**

Schools reported the number of instances that students were escorted from the school by police.

## **DEFINITIONS**

**DC Students vs. All Students At A Nonpublic School** - Almost all of the schools listed on OSSE's Approved Nonpublic School List accept students from other jurisdictions. When looking at the program capacity it is important to remember this. OSSE is responsible for paying for students from the District of Columbia.

**Instructional Hours Per Day** - As per District of Columbia Municipal Regulations a nonpublic school is required to provide a minimum of 6 hours of instruction per day for a minimum of 180 days totaling 1080 instructional hours.

**Physical Restraint** - the use of bodily force to limit a student's freedom of movement.

**Seclusion** - the involuntary confinement of a student alone in a room or area from which he or she is physically prevented from leaving, or from which a student believes he or she may not leave, whether or not in a locked area.

**Student:Teacher Ratio** - In the nonpublic school Certificate of Approval application, OSSE asks nonpublic schools to indicate their student:teacher ratio. This means the number of students per teacher. Some schools may have provided their student:staff ratio, that included a teacher and non-instructional staff (e.g., instructional aide, teaching assistant, behavior staff, 1:1 support staff, etc.).
